What does it take to care Heart Failure patients at home?

Joint event organised by NWE-Chance and Passion HF

Wednesday, March 2nd, 2022

9.00 am – 12.45 pm CET

NWE-Chance

Development and validation of promising integrated eHealth applications for hospitalisation of heart failure patients at home.

Objectives:

- To develop an integrated prototype home hospitalisation platform
- To evaluate the feasibility of the home hospitalisation platform with supporting care process
- To establish a sustainable innovation hub

This project has received funding form the Interreg NWE programme under grant agreement number NWE 661.
