

(ASSISTANT MÉMORIEL INTERACTIF)
INTERACTIVE MEMORY ASSISTANT

AMI Aidant
(Carer) on
smartphone

Our solution to help the *exhausted carer* and the *isolated caree*

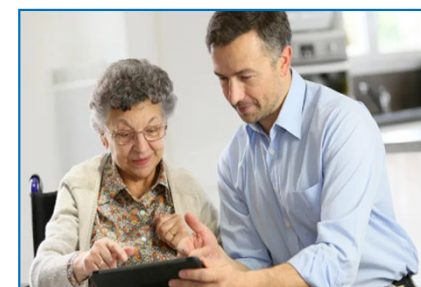

AMI Aidé
(Caree)
on tablet

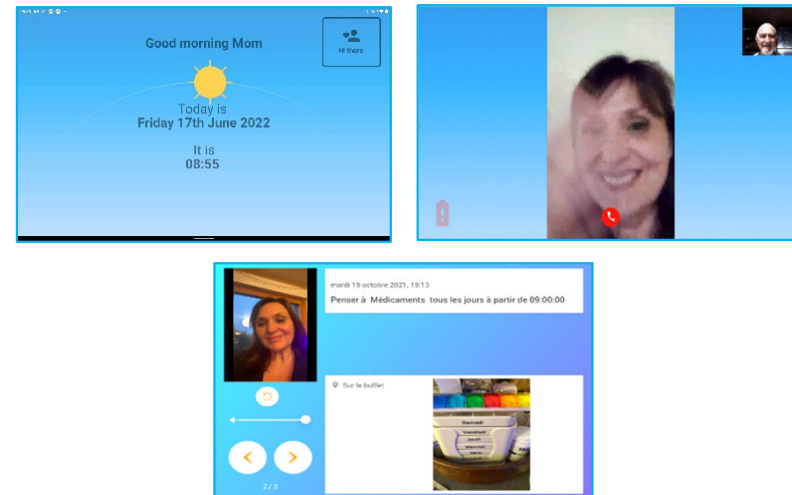

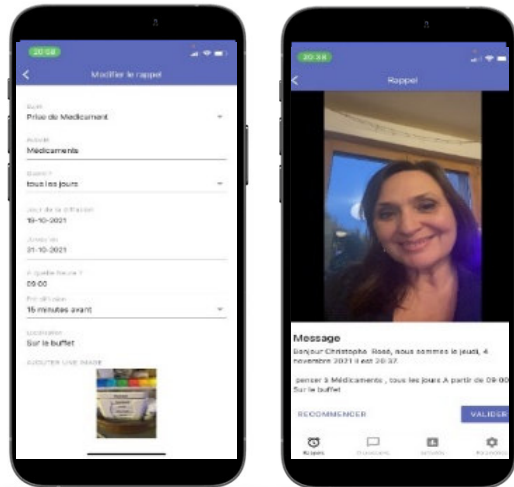

lbdc

LES BÉQUILLES DU COGNITIF

Social and Solidarity Economy SAS (French Simplified Joint-Stock Company)

“WE DESIGN TECHNOLOGICAL SOLUTIONS INTENDED FOR PEOPLE AFFECTED
BY FRAGILITIES AND THEIR FAMILIES”

2 Applications working in sync: AMI-Aidant (Carer) on smartphone et AMI-Aidé (Caree) on tablet. The Caree and the Carer communicate via video calling with automatic pick-up on the tablet. The Carer programs personalized messages of activity reminders that he embodies through a selfie video supported by text and a photo.

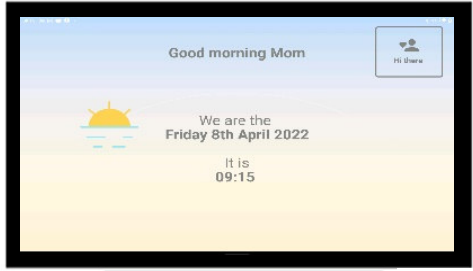

AMI-Aidé (Caree) allow anyone to transform any type of tablet in an Interactive Memory Assistant for people with frailties or cognitive slippage. Once installed, AMI take possession of the tablet*.

*When the Caree doesn't have to use AMI anymore, just uninstall it.

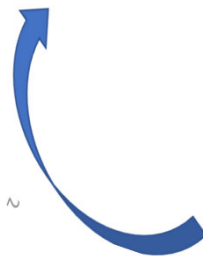

Circadian rhythm*

Replace the Caree in the instantaneity of the moment

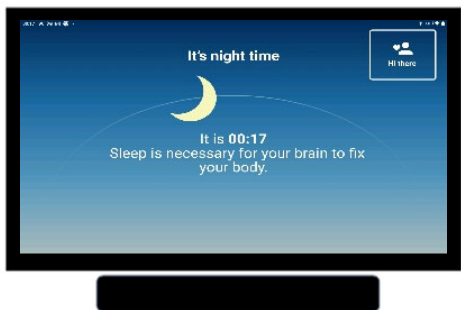

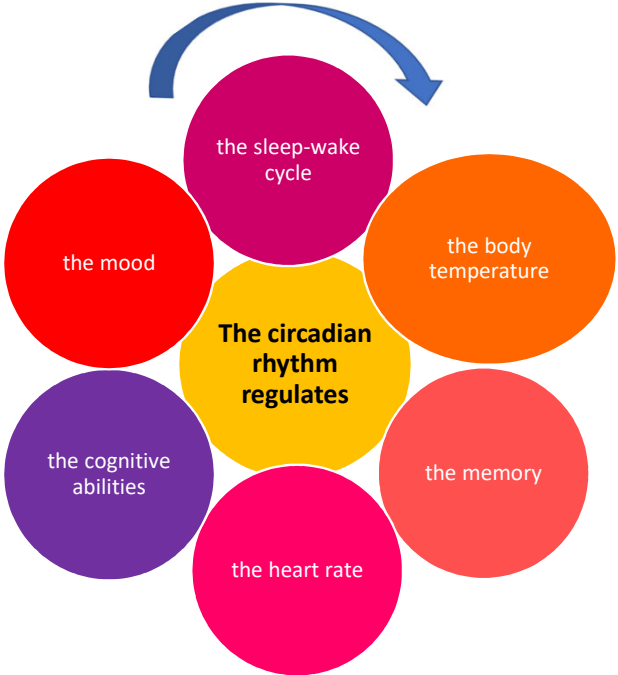

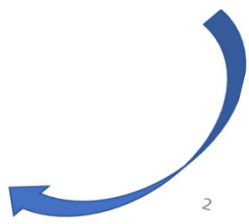

Invite the Caree to sleep at night

Stimulate and support his/her day-to-day activities

Maintain independence at home

* Ergonomics developed on the work of INSERM, designed to stimulate and preserve cognitive functions.

An innovation in the Carer and the Caree relationship

AMI Aidant (Carer) on smartphone

The Caregiver coordinates the daily activities of his/her Caree remotely

- Treatment intake
- Appointment, visits
- Daily activities
- Prevention messages
- Messages of affection from loved ones
- Doubt removal with automatic pick-up
- ✓ AMI makes it possible to reconcile professional and personal life
- ✓ AMI acts on the level of "perceived mental load" *Drees, 2019*

AMI Aidé (Caree) on tablet

The Caree regains autonomy and remains in social contact

- Manually trigger a reminder by touching the sun on the home page
- Let the reminders go off automatically
- Initiate and receive video calls
- ✓ Locate yourself in time, readjust your daily life
- ✓ Reclaim the acts of your daily life
- ✓ Regain access to leisure and social life
- ✓ Maintain contact with loved ones
- ✓ Facilitate the support of professional

For a simplified communication between the Carees and their loved ones.

Easy to use

The Caree just has to touch the screen

Video Calling

Peace of Mind

Always ON

Medication Reminders

Secure (protected data)

No publicity or pop-up
