l'innovation pour l'économie circulaire

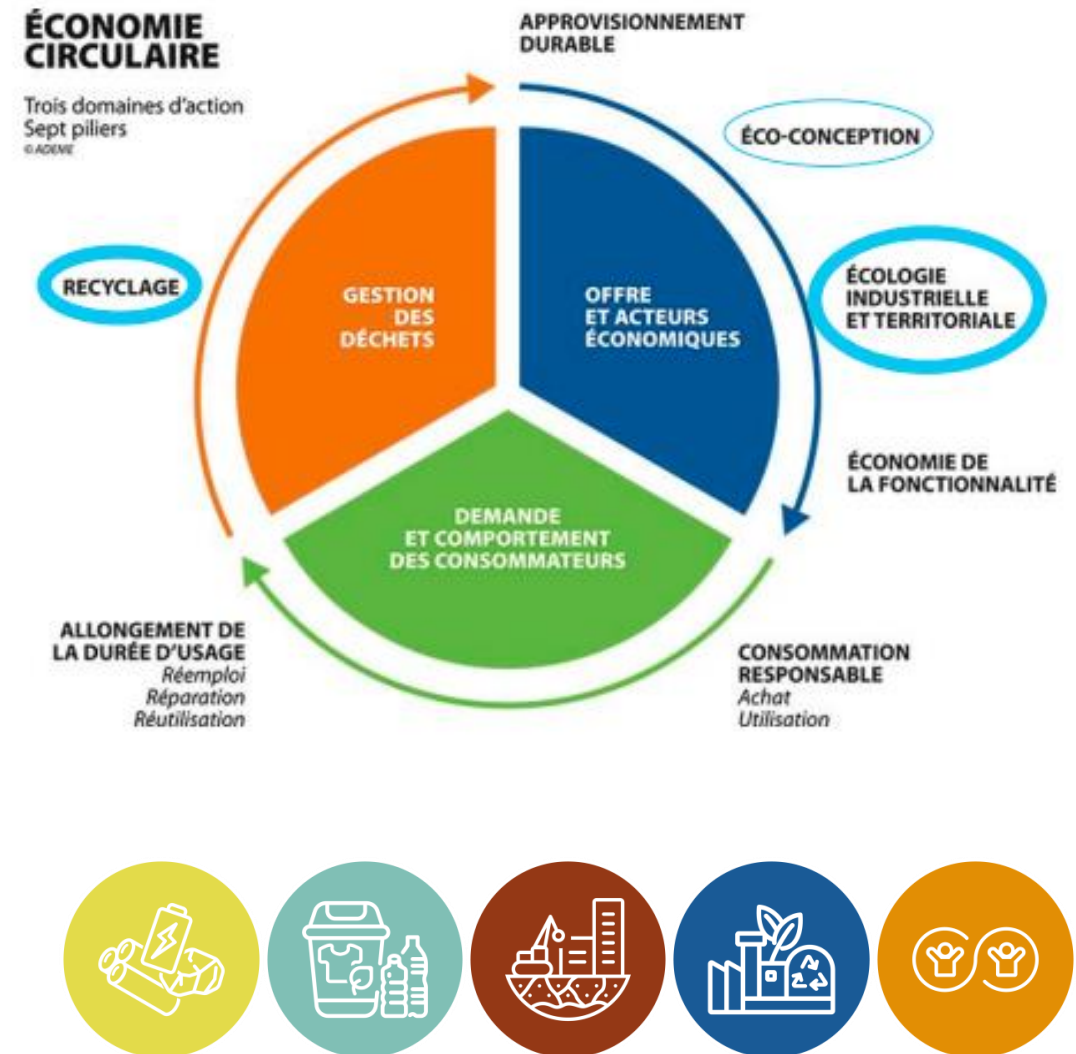

PRÉFET
DE LA RÉGION
HAUTS-DE-FRANCE

Founded in the Hauts-de-France region by Christian Traisnel, the cluster was certified in 2010

- Dedicated to the transition to a more circular and efficient economy by integrating material resources from recycling
- Since its creation, develops innovations and know-how to:
 - Recycling
 - The design of materials with the materials derived from them
 - The recyclability of new materials
 - Adaptation of industrial processes
 - Innovation for reuse

- Bring out and strengthen French players as national and world leaders in recycling or related activities
- Become the national innovation hub for recycling as part of a transition to the circular economy
- Develop know-how, economic activity and employment in the areas of the material life cycle
- Create a network of experts, industrial, scientific and institutional partners for recycling, a pillar of the transition to the circular economy

The objectives of TEAM2

TEAM2 focuses primarily on the following lifecycle areas:

- Recycling
- Design of materials with materials derived from them
- Recyclability of new materials
- Adaptation of industrial processes
- Innovations for reuse

« Accelerate the deployment of the circular economy by stimulating, through innovation, the recycling of materials and materials, allowing the production and use of new resources. »

STRATEGY & VALUES

Our actions

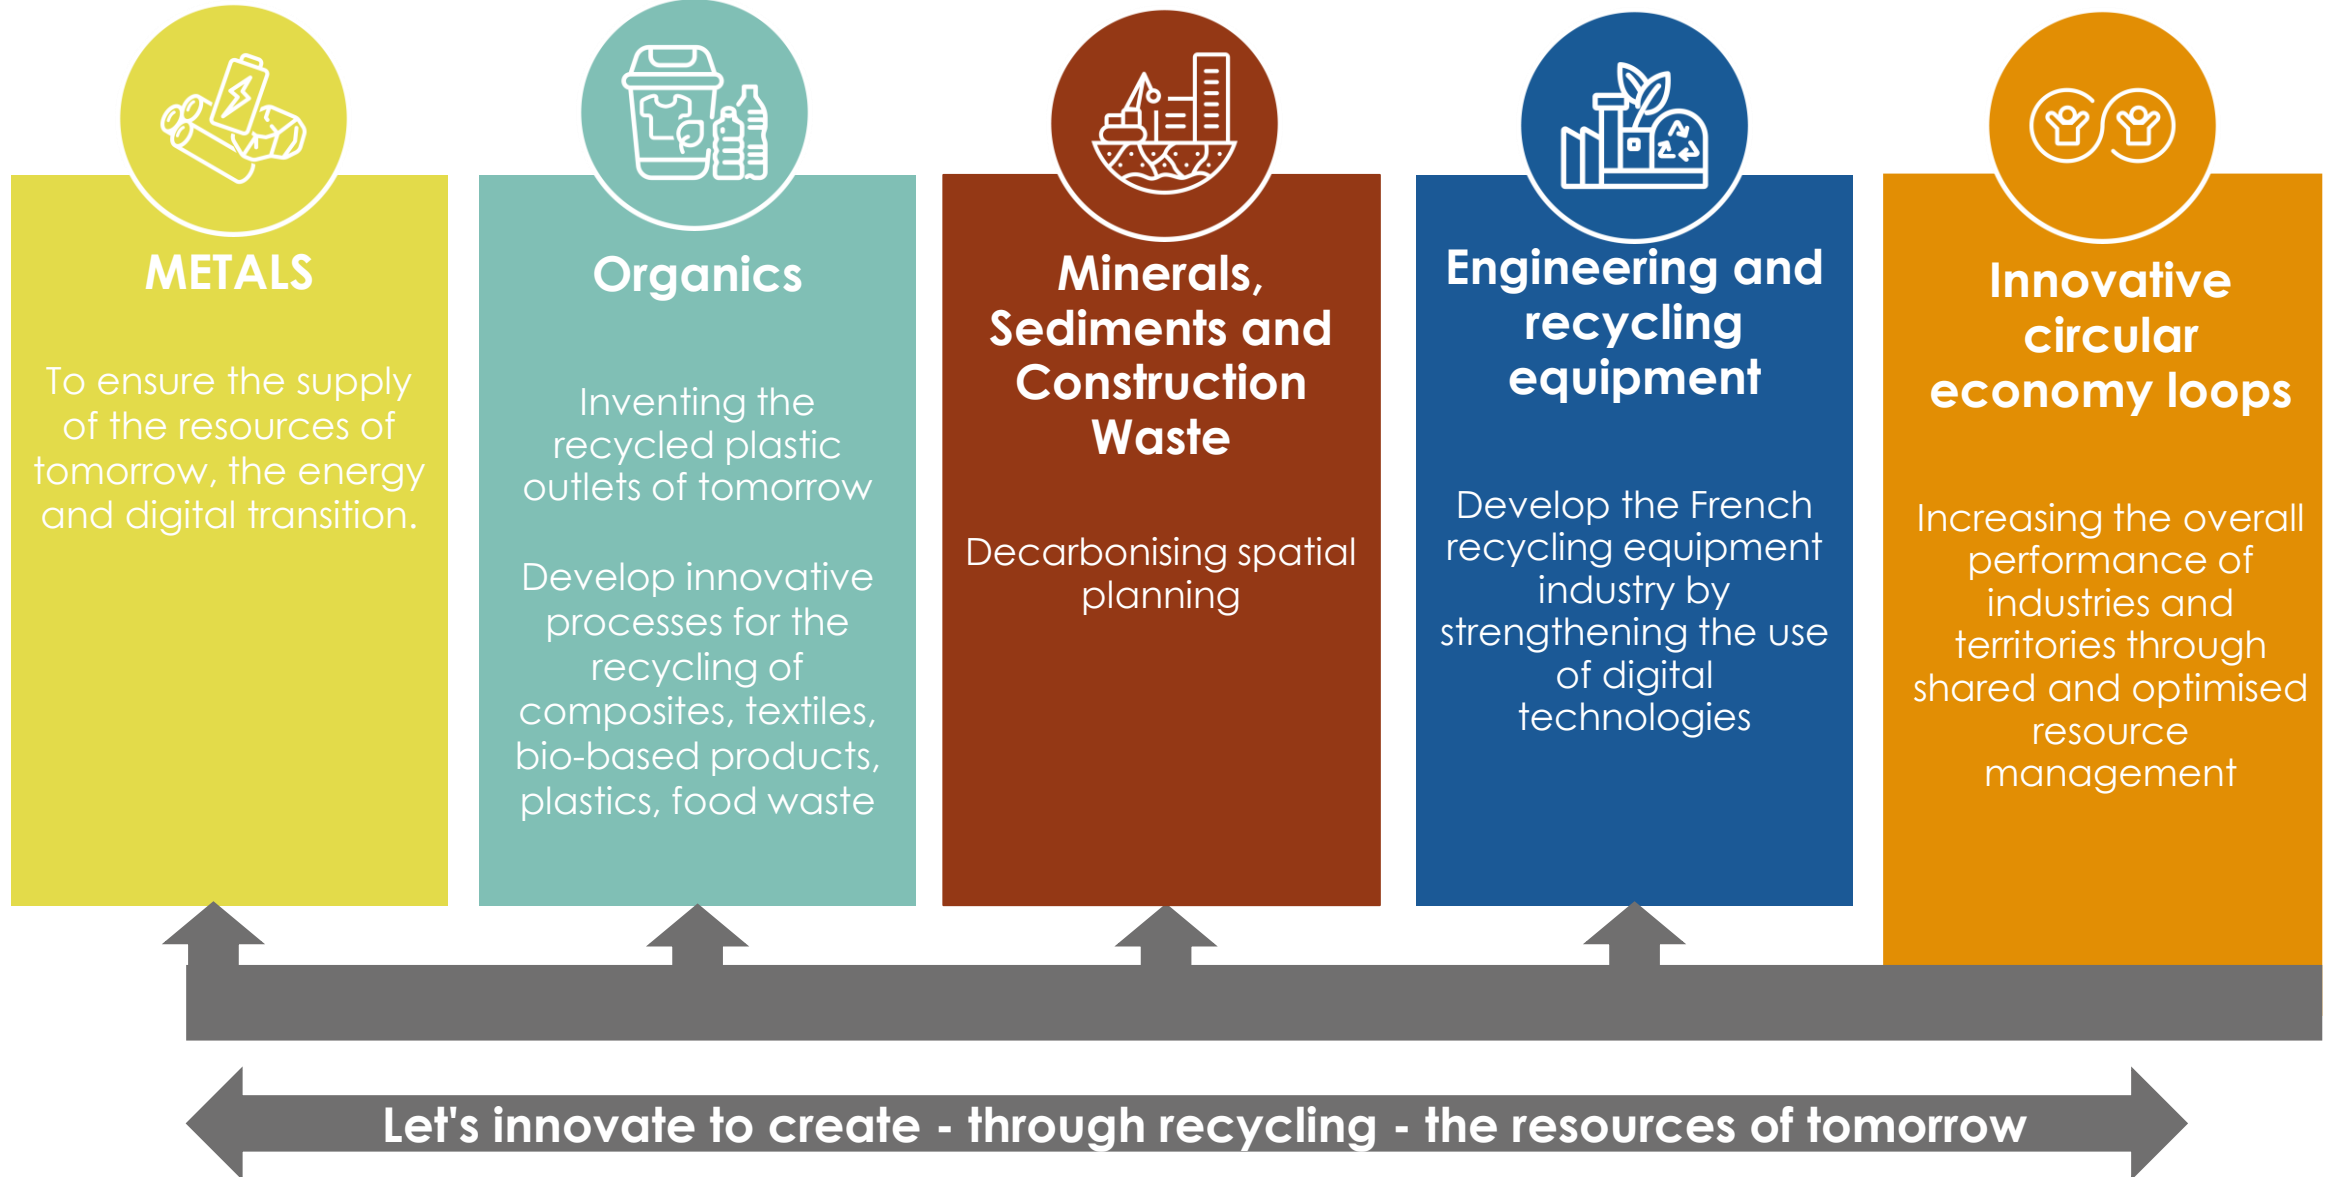

As a priority on the 5 Strategic Business Areas having the greatest impact on the territories

Our DNA

- Sustainable development
- The economics of cooperation
- Life Cycle Thinking

5 strategic activity

The purpose : enable industrial sectors to deploy the principles of the circular economy

VISION & OBJECTIVES

TO BE THE REFERENT

To apply or integrate the principles of the circular economy

- With industrial and territorial actors
- To the National Strategic Committees of the sector :
 - Chemicals and materials,
 - Electronic industries,
 - Mining and metallurgy,
 - Construction industries,
 - Waste processing and recovery

TO BE THE PROMOTER

- To develop and consolidate French players as national and world leaders in recycling or related activities
- To give strong global visibility to regional and French expertise

BOOSTING INNOVATION PROJECTS

- Structuring projects
- Helping and accompanying the setting up of collaborative projects
- Identify public funding for projects
- Labelled innovation projects

ACCESSING STRATEGIC INFORMATION

- Inform through a weekly newsletter
- Establish a state of the art in each of the cluster's fields
- Provide access to personalized thematic monitoring
- Receive calls for projects, allowing access to funding

Our ambitions for our members

STRENGTHEN AND INCREASE NETWORK AND SKILLS

- Access to the cluster's events (webinars, workshops, innovation platform, etc.)
- Accompany organisations to trade fairs
- Access a directory of TEAM2 members and a map of laboratories
- Follow sensitization sessions

INCREASE VISIBILITY AND HIGHLIGHT EXPERTISE

- Communicate about our members
- Communicate on innovation projects
- Promote international development

TEAM2 : a team to support you in your projects

Carole Magniez
Managing director

Moïse Vouters
Deputy General Director
European projects
manager

Gratiennne Torque
General Secretary
