THEMATIC PRIORITY

## BioWILL - An Integrated Zero Waste Biorefinery Process

### PROJECT OBJECTIVES

#### Optimise Salicin Recovery

- Field trials
- Yearly harvests
- Examine disease resistance & stress responses

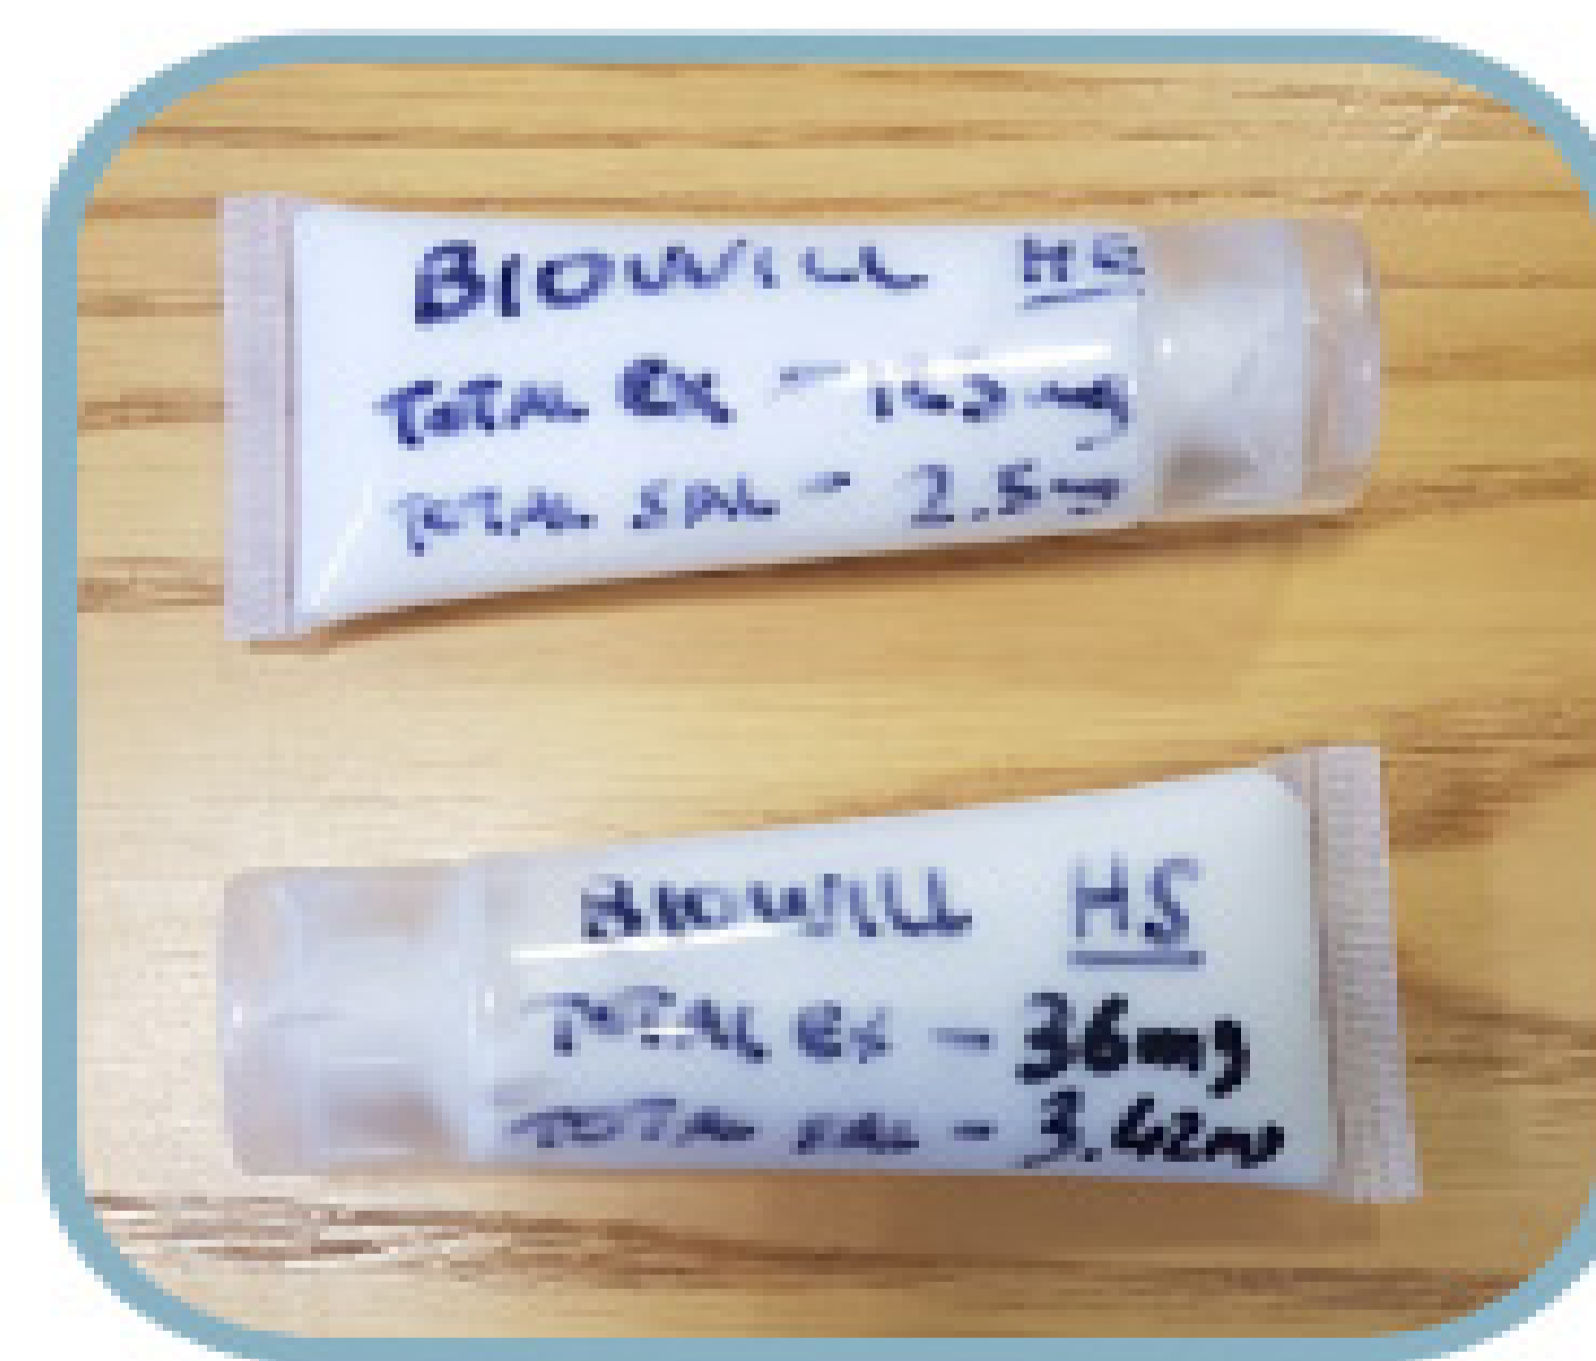

#### Develop & Optimise the Processing of Willow into Product Components & Materials

- Separating willow bark
- Forming recycled bio-fibre materials
- Biogas production

#### Optimise Product Development of Willow Residues

- Testing medical salicin products
- Establish soil digestate
- Validate digestate carbon sequestration potential
