

Funding Ocean Renewable Energy through Strategic European Action

FORESEA Access: 5th Call for Applications

The main objective of FORESEA (Funding Ocean Renewable Energy through Strategic European Action) is to help North West Europe¹ enterprises developing low carbon technologies to test their products or services in real sea environments and to enable power to be economically extracted from the ocean.

For this purpose, the project consortium is happy to announce the **5th Call for Applications** for access to test sites to perform tests and validation of low carbon technologies. The applications received will be checked for eligibility, evaluated by a User Selection Board² and, if successful, granted aid to access the test site of the users' choice by means of a Support Package².

Supporting documentation for this 5th Call comprises the following:

- This document (FORESEA Access – 5th Call for Applications)
- FORESEA Access – Rules and Conditions version 3.1 (PDF document)
- Application Form version 1.5 (Microsoft Word format)

These documents, and further information on FORESEA, are available in electronic form on the FORESEA website (<http://foreseaproject.eu>). Applicants should become familiar with these documents and, in particular, with the Rules and Conditions before applying to FORESEA.

Who can apply

1. Any enterprise can apply, in whatever form or purpose, whether research centre, third level education institution, company or individual. The applicant must own the product or service (or rights to the product or service) being tested or validated, and must **complete testing on or before SEP 2019**;
2. Please see the Rules and Conditions for a complete definition of eligibility.

¹ Interreg NW Europe countries are: Ireland, the United Kingdom, Belgium, Luxembourg, Switzerland, France, Germany and the Netherlands. Enterprises from outside these countries may need to establish a subsidiary or a branch

² Please see *Rules and Conditions*

How to apply

1. Applicants should first contact the Access Coordinator for general information on the call and for guidance in selecting a test site (see *Contacts* below);
2. Applicants are then asked to familiarise themselves with the test site they want to access (listed as first choice in the Application Form). Applicants must contact the test site and hold a preliminary discussion on their test and financial plans and objectives. Additional contacts with test sites listed as second or third choices are also recommended.
3. Applicants should read the Application Form and fully understand the information that is being requested. Once all the recommended preparatory steps have been taken and the required information is at hand, applicants should fill out the Application Form by editing the Word document.
4. The completed Application Form should be signed and a PDF version of it sent to calls@foreseaproject.eu. The signed original must also be posted to the Access Coordinator.

Deadline for applications

This 5th Call for Applications is open from the **7th January 2019** until the **25th January 2019, at 17:00 UTC**.

Additional information specific to this Call

1. The User Selection Board will use the following weightings in their evaluation of the applications to this call (please refer to the *Rules and Conditions*):

Criteria	Weight
Readiness for deployment	30
Feasibility	20
Schedule	15
Co-financing strategy	25
Impact	10

2. The Support Packages currently available are stipulated below (refer to the *Rules and Conditions* for clarification):

<i>Sources of funding</i>		<i>Amount</i>
FORESEA (Interreg)		60% (50% at DMEC)
Test Site Operator		Up to 40% ^{*1}
User		Up to 40% ^{*2} (50% at DMEC) For EMEC see ^{*3}
Specific conditions	<p>(*1) In some limited cases, the test site can absorb up to 40% of the access costs</p> <p>(*2) The user must enrol as a FORESEA Interreg NWE sub-partner of the selected test site; the amount supported by the user will be discussed and detailed in the access contract. Terms and condition of the Interreg contract³ will apply to sub-partners.</p> <p>(*3) Typically up to €100k, with eligible funds coming from the developer's existing associated activities, e.g., marine operations.</p>	
<i>Intellectual Property</i>		
	Foreground and background IP stays with the user.	
<i>Services and facilities included</i>		
	Access to the site; use of infrastructure; access to test site personnel; data services (including inter-comparison with reference data).
