# North-West Europe

# RegEnergy

European Regional Development Fund

THEMATIC PRIORITY:

**LOW  
CARBON**

Creating renewable energy demand-supply partnerships between rural and urban areas

Developing models to remove barriers to urban-rural renewable energy partnerships

Pilot investments increasing renewable energy consumption and production with urban-rural partnerships

**PROJECT  
AREA**

**Project objectives:** Increase the use of renewable energies by creating demand and supply partnerships between rural and urban areas to achieve GHG emission reductions

Total budget received from Interreg North-West Europe (2014-2020):

**€6.1 million of ERDF**

Total project budget:  
**€11.08 million**
